

COVID-19 PCR Test

Read below to find out more information about this test.

How much is the test?

The test is \$118 paid at the time of scheduling. However, BASE10 provides an itemized receipt with procedure/billing codes so that you can file a reimbursement claim with your insurance company.

How is the sample collected?

The test is a saliva sample deposited into the collection tube. When the cap is screwed shut, a chemical solution is mixed with the sample that inactivates any virus in the sample.

How do I prepare for the test?

First, schedule an appointment through the link on our website. When you arrive for your test, give our pharmacy a call and please **STAY IN YOUR CAR**. We will bring the test out to you. Do not eat, drink, or chew gum 30 minutes beforehand.

How long will it take to get my results?

You will receive results within 48 hours of processing. You will access results through the BASE10 portal that you scheduled your appointment through. If you test positive, you will be contacted for next steps.

We all struggle, choose kindness always.
